 - p. Cemeteries
 - q. Damages and Legal Expenses
 - r. Moth and Blister Rust Extermination and Rag-Ragweed
 - s. Interest on loans
 - t. Insurance
 - u. Printing of Town Reports
3. To see if the Town will authorize the Selectmen to borrow money by temporary loans in anticipation of taxes.

4. To see if the Town will authorize the Selectmen to administer or dispose of any real estate acquired by the Town through collector's deeds or otherwise.

5. To raise and appropriate to the White Mountains Regional Association, for its program of advertising, etc., as a part of the cooperative investment by regional towns, an amount equal to \$.10 per \$1,000 of the assessed valuation for 1954.

6. To see if the Town will vote to extend the public water main on the Cherry Mountain Road, build new reservoir, and/or drive wells, and do such other work in connection therewith as may be necessary and raise and appropriate money for the same.

7. To see if the Town will vote to raise and appropriate such sums as may be necessary for repairs on Little River Dam.

8. To see if the Town will vote to raise and appropriate a sum of money for Civilian Defense.

9. To see if Town will vote to approve Heating Plant installed in Town Hall in 1954.

10. To see if the Town will vote to close certain parts of Route 3 bypassed by new construction by State.

11. To see if the Town will vote to purchase an insect sprayer and appropriate such sum as may be necessary for same.

12. To transact any other business that may legally come before this meeting.

Given under our hands and seal of the Town of Carroll this 21st day of February, 1955.

SELDEN G. THOMPSON,
OSCAR E. RINES,
PHILIP F. McKENNA,
Board of Selectmen.

School Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of
Carroll qualified to vote in District Affairs:

You are hereby notified to meet at the Town Hall in
said district on the eighth day of March 1955, at two o'clock
in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose a Member of the School Board for the ensuing three years.
5. To hear the reports of Agents, Auditors, Committees, or Officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.
7. To see if the school district will vote to adopt a plan for extending to employees of the school district the benefits of title II of the Federal Social Security Act (Old-Age and Survivor's Insurance) as authorized by Chapter 234 of the Laws of 1951 and to raise and appropriate the sum of \$32.00 to defray the school district's share of the cost thereof.
8. If the foregoing article is adopted to see if the school district will authorize the School Board to execute on behalf of the school district the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the school district will designate the School District Treasurer as the officer to be responsible for the administration of the plan.
9. To see if the school district will raise and appropriate a certain sum of money to be used for the construction of a ceiling over the stage in the auditorium-gymnasium.
10. To see if the school district will raise and appropriate a certain sum of money to be used for the purchasing of curtains for the stage in the auditorium-gymnasium.
11. To see if the school district will raise and appropriate a certain sum of money to be used for the installation of an Amplifier System in the auditorium-gymnasium.

12. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given under our hands at said Carroll this first day of February, 1955.

MARY YOUNG, Chairman
ROSE GLINES
MARGARET RINES
School Board of Carroll, N. H.

School Board Report

To the Citizens of the Town of Carroll:

As you know, previous to our last Town Meeting, a Citizens' Committee had been formed and had been studying the curriculum of the High School to see what changes would be necessary to meet the standards of the State Board of Education for our approval beyond June 10, 1954. This committee submitted its report to the State Department in December 1953. Since nothing further was heard from the State Department, we went ahead and prepared our budget for the year 1954-1955. Our Town Meeting was held on March 9, 1954 at which time you approved the budget. Then, the following day, March 10, 1954 we received a letter from the State Department withdrawing approval of our High School:

March 10, 1954

Mrs. Rose Glines, Chairman
Carroll School Board
Twin Mountain, New Hampshire

Dear Mrs. Glines:

The State Board of Education at its regular meeting Monday, March 8th, reviewed the educational program of the Twin Mountain High School in view of the letter of Mrs. Margaret Rines which had been evaluated by the Instructional Division of the State Department of Education.

After a careful consideration of the many factors involved the Board voted unanimously to withdraw approval of the Twin Mountain High School effective July 1, 1954. This action was taken because it is evident that present and projected enrollments will not provide a secondary school organization which will permit you to offer an education suited to the varying needs and abilities of the resident high school pupils of your District.

Sincerely,
HILTON C. BULEY,
Commissioner of Education

HCK:knb
cc Mrs. Margaret Rines

On March 15, 1954 our Superintendent, Mr. Harold A. Truell, wrote the State Department as follows:

March 15, 1954

Dr. Hilton C. Buley
Commissioner of Education
Concord, New Hampshire

Dear Dr. Buley:

Your letter of March 10, 1954, relative to the Twin Mountain High School, has been received by Mrs. Rose Glines, Chairman of the Carroll School Board.

As the action taken by the State Board of Education, as noted in this letter, will have a strong repercussion by the citizens of the Town of Carroll, the members of the School Board are very anxious to have you, in person, come to Twin Mountain to discuss this problem with them.

The School Board is quite disturbed as it feels that this decision should have been sent previous to its regular meeting held on March 9, 1954. This would have given the members of the School Board the opportunity to discuss the above mentioned action with the voters of the Town.

For my own information would you be willing to write me as to the full meaning of such action. In other words, we would like to know what effect this would have on the pupils attending the Twin Mountain School providing the School Board should vote to continue the same during the 1954-1955 school year.

We would appreciate an early reply as the election of the high school teachers has usually been made previous to April 1 for their benefit.

Thank you for this courtesy.

Sincerely yours,
HAROLD A. TRUELL,
Superintendent of Schools

HAT/s

Dr. Buley acknowledged his letter as follows:

March 18, 1954

Mr. Harold A. Truell
Superintendent of Schools
Whitefield, New Hampshire

Dear Mr. Truell:

The consequences of withdrawing approval of the Twin Mountain High School by the State Board of Education means that credit for any studies or scholastic work completed there would be no longer acceptable to other schools in the State or to institutions of higher learning. Accord-

ing to the law the State Board does not actually close a high school but in effect it nullifies its operation.

Personally I see no reason for me having a conference with the members of your Board. They are perfectly acquainted with the implications of this action of the State Board since they were warned of the decision over a year ago. Dr. John Kelley met with a group of citizens and the P. T. A. explaining the limitations of a program of education offered by such a small high school.

The local School Board has the alternative of making arrangements with either Whitefield or Littleton to accept their high school pupils. Transportation should not represent a difficult problem in either case.

Cordially,
HILTON C. BULEY,
Commissioner of Education

HCB:knb

Mr. Truell approached Mr. Edward Robinson, of Lancaster, a member of the State Board, to see if he would obtain a hearing for us with the members of the Board at Concord. He made an appointment for us on May 10, 1954, but the meeting was postponed until May 17, 1954, as follows:

April 13, 1954

Mrs. Rose Glines, Chairman
Twin Mountain School Board
Carroll, New Hampshire

Dear Mrs. Glines:

Mr. Edward Robinson presented the request of your School Board to be heard by the State Board of Education in connection with continuing the approval of the Twin Mountain High School. The State Board of Education wished me to inform you that it will be glad to have you present your case Monday afternoon, at 1:30 P. M., May 10, 1954, at the Department of Education, Concord.

I would appreciate very much an acknowledgment of your Board's intention of being present at this hearing.

Cordially,
HILTON C. BULEY,
Commissioner of Education

HCB:knb

We went to Concord on that day and met with Dr. Buley and the members of the Board. Then a letter of May 20, 1954 was received withdrawing their decision and granting further approval.

May 20, 1954

Mrs. Mary R. Young
Twin Mountain, New Hampshire

Dear Mrs. Young:

Under the circumstances as presented at the hearing Monday, May 17, 1954, the State Board of Education voted to rescind its previous action and approve the Twin Mountain High School for another year 1954-1955. It also instructed me to inform you that it was desirous of arranging a meeting with the Twin Mountain School Board, at a mutually convenient date, when acceptable standards could be agreed upon for the continued approval of the Twin Mountain High School.

Sincerely,
HILTON C. BULEY,
Commissioner of Education

HCB:knb
cc Mr. Harold A. Truell

Twin Mountain
New Hampshire
May 27, 1954

Dr. Hilton C. Buley
Commissioner of Education
Concord, New Hampshire
Dear Dr. Buley:

We wish to thank you and the State Board of Education for approving the Twin Mountain High School for the year 1954-1955.

We shall be pleased to meet with the State Board of Education some time during the week of September 27, 1954 at which time we could set up suitable standards for continued approval.

May we hear from you regarding an agreeable time for such a meeting?

Very truly yours,
MARY R. YOUNG, Chairman
Carroll School Board

cc: Mr. Harold A. Truell

June 3, 1954

Mrs. Mary R. Young
Chairman, Carroll School Board
Twin Mountain, New Hampshire

Dear Mrs. Young:

Your appreciation of State Board action to continue the

approval of Twin Mountain High School for the year 1954-1955 will be presented to it at its next meeting.

I will convey your willingness to meet with the Board sometime during the week of September 27, 1954 for the purpose of establishing suitable standards for continuing approval.

Sincerely yours,
HILTON C. BULEY,
Commissioner of Education

B-B

According to the suggestion made by the State Board of Education that we contact the newly elected commissioner in the fall, we wrote for an appointment with Dr. Austin McCaffrey to see what changes would be necessary to have this approval continued. Dr. McCaffrey has not had time as yet to give our situation sufficient study to make any recommendations, as will be noted by the following letter:

October 1, 1954

Mrs. Mary Young
Chairman, Carroll School Board
Twin Mountain, New Hampshire

Dear Mrs. Young:

The State Board of Education has authorized me to meet with the school board in Carroll for the purpose of discussing the conditions under which the Twin Mountain High School will be permitted to continue as an approved school under the prescribed standards of the Department.

I will try to arrange for this meeting later in the month so that a decision may be made as soon as possible.

The delay in acting upon this matter has been caused by excessive demands upon my time during the first few weeks in this new position.

Sincerely your,
AUSTIN J. McCAFFREY,
Commissioner of Education

M-B

As no word had been received from the State Department up to January, 1955, the following letter was written by Mr. Truell:

January 5, 1955

Dr. Austin J. McCaffrey
Commissioner of Education
Concord, New Hampshire

Dear Dr. McCaffrey:

At a recent meeting of the Carroll School Board, I was

directed to write you regarding the Twin Mountain High School, Carroll, New Hampshire.

As the Board is planning to start immediately on its 1955-1956 Financial Budget, would you advise me as to whether or not the State Department of Education anticipates closing the Twin Mountain High School after June 30, 1955.

Any help you may give me at this time will be greatly appreciated.

Sincerely yours,
HAROLD A. TRUELL,
Superintendent of Schools

HAT/s

As a result of our letter of January 5, 1955, the State Board of Education continued its study of the proposed closing of the Twin Mountain High School. On February 5, 1955, your chairman received a letter from the Commissioner of Education, Dr. Austin J. McCaffrey as follows:

February 2, 1955

Mrs. Mary Young
Chairman, School Board
Twin Mountain, New Hampshire

Dear Mrs. Young:

The State Department of Education is convinced that students attending extremely small high school units are experiencing many educational disadvantages. We are hopeful that school boards will acknowledge this and take appropriate steps to attain these advantages for the youth in their districts. This is especially necessary for Twin Mountain, because of the evident shortcomings of its educational offerings. We have no doubt whatever but that the decision to close the school would be sound. Before recommending this course of action to the State Board of Education, we are going to extend approval to the school for one year pending further investigation and study, provided that the School Board assures us that it will meet the following recommendations:

1. Certified teachers are employed.
2. Overcrowding in the two small classrooms will be avoided.
3. Adequate equipment and supplies are provided for the science classes. This should include bottled gas for the laboratory (necessary for science 7-8, as well as high school).

4. Adequate reference books, magazines, newspapers, encyclopedia shall be supplied.

5. Correspondence courses are made available to pupils who want them and can profit from them.

As soon as steps have been taken to meet these recommendations, our approval will be submitted.

If we can be of any further assistance, please feel free to contact this office.

Sincerely your,
AUSTIN J. McCAFFREY,
Commissioner of Education

AJM:MC

cc to: Supt. Truell

As this report had to be submitted to the printer before your School Board and Superintendent of Schools had adequate time to study its implications, your Board is not in a position to comment further at this time. It is hoped that more definite information may be supplied to the voters at its next regular School District Meeting on March 8, 1955.

We wish to take this opportunity to thank the Citizens' Committee, namely, Michael Thompson, Philip McKenna, Mrs. Selden Thompson, Mrs. Donald Marshall and Mrs. Austin Rines for giving so generously of their time and effort in studying our school problems and visiting other schools during their study.

When the Auditorium-Gymnasium was completed, regulations were made concerning the use of the facilities. These regulations have been revised as follows:

REGULATIONS GOVERNING PUBLIC USE OF TWIN MOUNTAIN AUDITORIUM-GYMNASIUM

POLICY: It is the belief of the School Board of the Town of Carroll that the auditorium-gymnasium should be available as a community center at such times as are desired—provided public use does not interfere with scheduled school activities.

Regulations

Since the auditorium-gymnasium is fundamentally a school facility and since the School Board is responsible for its use and maintenance, the following regulations have been established for its use:

1. All scheduled school activities shall have priority over other community activities.

2. At no time shall the facility be used by either school or community without the custodian, or some other duly appointed person, being in charge.

3. No smoking is to be allowed in the auditorium, classrooms, or lavatories.

4. When the gymnasium is being used, classrooms will be locked unless permission for their use has been granted by the principal or superintendent of schools.

5. Requests for the use of the buildings shall be made to the chairman of the school board, the superintendent of schools or to the principal.

6. The principal of the school shall keep a written record of requests for use of the building, a record of the actual dates it is used, and a record of the number of hours it is used by each requesting group.

7. If a paid public function is held in the gymnasium, police protection shall be paid for by the group using the building.

8. Any group outside of the town, desiring use of the building, shall pay a rental fee of \$2.50 per hour. This payment shall be made in advance of the day of use.

9. For all activities, other than school functions, the custodian shall be paid at the rate of \$1.00 per hour by the group using the building.

10. An officer of the law must be present at all public functions.

August 5, 1954

Effective September 1, 1954

The ski program under the able leadership of Mr. John McNamara has been continued and is discussed at greater length in his report.

We wish, also, to thank our very active Parent-Teachers' Association for their generosity in working so wholeheartedly for our school. During the past year they have purchased an excellent Webcor Tape Recorder, given several parties for the children, provided for numerous awards at graduation, purchased new play equipment for the children and provided new uniforms for the girls' basketball team. We feel very fortunate in having such a group in our community.

During the last few weeks the children in Grades 1-6 have had the privilege of having the Fluoride Treatment on their teeth to help prevent their decay. This service was provided for them through the State Health Department.

We have included three articles in the warrant, requested by the Parent-Teachers' Association: (1) to see if the School

District will vote to put curtains upon the stage of the auditorium, (2) to see if the School District will vote to construct a ceiling over the stage, (3) to see if the School District will vote to install an Amplifier System in the auditorium-gymnasium. These improvements would greatly enhance the acoustical effects when various programs are being given.

We wish to thank Mr. John McNamara and our teachers for the splendid cooperation they have given us during the past year and also Mr. Truell who has given so generously of his time in assisting us and making this year a successful one.

A cordial invitation is extended to parents and townspeople alike to visit the school at any time.

Respectfully submitted,

MARY YOUNG,
Chairman of School Board

Superintendent's Report

To the School Board of the Town of Carroll:

My second annual report as Superintendent of Schools in the Town of Carroll is submitted herewith.

Superintendency Union No. 31

The Superintendency Union No. 31 is composed of the towns of Lancaster, Whitefield, and Carroll. The duties of the Union as a whole are to select the Superintendent of Schools, special teachers, supervisors and the Union secretary. The school nurse is engaged separately by the individual towns. The Superintendent's salary for the school year 1953-1954 was proportioned as follows: Lancaster 32.2%, Whitefield 16.3%, Carroll 5.7% and the State share 45.8%. The salary of the secretary and office expenses of the Union for the school year 1953-1954 were proportioned as follows: Lancaster 59.5%, Whitefield 30%, and Carroll 10.5%. These percentages are based on two factors having equal weight as follows: (1) Average daily membership of district, and (2) district valuations (adjusted). The following chart might be of interest to show how these percentages are derived:

District Valuations (Adjusted)

Carroll	\$ 15,298.29
Lancaster	59,544.49
Whitefield	33,193.34

Total Valuation of Supervisory Union No. 31	\$108,036.12
---	--------------

* * * * *

Average Daily Membership of District

District	Elem.	High	Total
Carroll	51.9	9.4	61.3
Lancaster	492.5	230.9	723.4
Whitefield	244.6	98.8	343.4
Totals	789.0	339.1	1128.1

District Percentages of Costs

District	Valuation %	A. D. M. %	Average %
Carroll	16	6	11
Lancaster	51	64	57.5
Whitefield	33	30	31.5
Totals	100	100	100.0

Section 47 of Chapter 135 of the Revised Laws has been amended by the 1951 General Court to read, in part, as follows: "The basis for the apportionment shall be one-half on the average membership for the previous school year and one-half on the last adjusted valuation of the district."

The average percentages will vary slightly each year due to changes in the valuation of the districts and the Average Daily Membership of pupils in the districts.

At the present time the Union School Board employs a full time elementary supervisor whose duty it is to aid and direct those teachers teaching Grade 1 through 6. This position has been in existence for approximately five years. Miss Blanche Witherell, Elementary Supervisor, is of great help to these teachers. Special programs relative to the progress of the pupils, both individually and as a whole, are carried on under her guidance. We recommend that her report be read and digested as we feel that this field of education should be understood by all interested parents and citizens.

School Personnel

The Town of Carroll lost two of its teachers during this past school year. Mrs. Vera Allen, high school science teacher, resigned to accept a position in the state of Connecticut. Mrs. Frances Daley, teacher of Grades I through III, resigned because of ill health. We wish to express our appreciation to these teachers for the work they did for the boys and girls while teaching at Twin Mountain School.

Mr. Harry Peach of Campton, New Hampshire, graduate of Plymouth Teachers College, was employed to fill the vacancy created by the resignation of Mrs. Allen. Mrs. Ruth Fisher of Wollaston, Massachusetts, graduate of Prince Wales Teachers College, was employed to fill the vacancy created by the resignation of Mrs. Frances Daley.

Mr. John McNamara continues as principal of the Twin Mountain School and Miss Phyllis McKenna continues as teacher in the Commercial department in the high school. Mrs. Annie Harris teaches Grades IV through VI.

Enrollment

The following table on present and future school enrollment will show to some degree, what the expected elementary attendance for the Twin Mountain School may be. Whereas, we may expect a more or less constant enrollment as shown in our elementary grades, we must be cognizant of the fact that the high school enrollment varies continually.

**Anticipated Enrollment in Grade I According
to Census Report
September 1954**

Three Year Summary

Year	Sept. 1952	Sept. 1953	Sept. 1954
1954	5	7	10
1955	5	6	8
1956	7	6	7
1957	8	11	16
1958	4*	6	5
1959		6*	11
1950			13*

* This figure includes only children born before September 1 of that calendar year as the census is taken at that time.

High School

As you will recall there was a question last year concerning the continuance of the Twin Mountain High School for the school year 1954-1955. We suggest you re-read last year's report by the Superintendent of Schools.

Your School Board is endeavoring to keep the Twin Mountain High School open in order that all of the children in the Town of Carroll may have an opportunity to obtain secondary school education. At the present time the success or failure of its endeavors rests with the decision of the State Board of Education and the Commissioner of Education, Dr. Austin J. McCaffrey.

We recommend that you read the report of your School Board in order that you may have a full and concise analysis of what has been done by your School Board concerning your high school since its last report.

Rather than repeat material covering a complete picture of present enrollment, subjects taught, and courses offered in your High School, we refer you to your principal's report.

Handicapped Children

Last year it was reported to you in the report of the Superintendent of Schools that new legislation has been passed relating to the education of handicapped children. We suggest that you read this section again.

It might be of interest to the citizens to know that we have one pupil who comes under this classification during the school year 1954-1955.

Repairs

Your School Board has had all the upstairs rooms of the school, including the office of the principal, painted in at-

tractive shades of green with white ceilings. The contract for this job was awarded to Mr. Floyd Stewart of Lancaster. The outside walls of the school building were touched up where necessary. The project of repairing the cellar wall for the purpose of eliminating water from entering the cellar is to be completed this coming spring.

A new furnace pipe was installed to replace the old pipe which was very porous and a fire hazard.

Other minor repairs have been completed as necessary.

Budget

As there was a deficit of \$1021.88 anticipated in the 1953-1954 Budget, we feel that it should be reported that this deficit has been paid. Unless some emergency should occur over which your School Board has no control, the School District of Carroll will not have any outstanding bills as of June 30, 1955 other than the annual debt and interest incurred at the time the gymnasium was built.

Social Security

Last year it will be noted that there was an article in the warrant requesting that the school committee have power to offer social security to our school custodian, Mr. John McGee. Upon contacting the Social Security Office for definite forms which were necessary for filing the School Board's intention of paying this retirement, your Superintendent of Schools was informed that this article was not sufficient. Therefore, it will be necessary that further action be taken by the School District before the social security program can go into effect. Articles 7 and 8 in your school warrant are there for the purpose of allowing your school custodian to receive the benefits of the social security program. We feel that our custodian should have the right to belong to this retirement system.

Insurance

Last year your School Board in conjunction with the Whitefield and Lancaster School Boards were able to offer to all pupils of these towns the opportunity of participating in a Special School Child Accident Policy for \$1.25 per pupil per year. Up to this time there had been no coverage for accidents which happened at the school during school sessions. The expense of an accident was borne directly by the parent. It is thought that this Accident Insurance Policy will be a great help in meeting expenses which occasionally occur.

This year the policy became effective September 23, 1954 and will continue until September 23, 1955. Fifty-four

pupils and teachers took out this insurance. This shows that approximately 75 percent of the entire student body enrolled in this project.

May we take this opportunity to express our sincere appreciation to the members of the Twin Mountain Teachers' Association who have worked so hard during this past year for the good of the school. Much has been accomplished. We feel that an active Parent-Teachers' Association that is interested in what is being done in the school can be extremely helpful.

May we express our appreciation to Mr. John McGee, school custodian, for his interest in having the school an asset to the Town of Carroll. Without a clean wholesome school your teachers would be unable to perform their best work.

Your attention is drawn to the report written by Miss Blanche Witherell, Elementary Supervisor, which follows this report. Miss Witherell is doing an exceptionally fine piece of work in the elementary grades.

Our sincere appreciation also goes to Mr. John McNamara, Principal, and all members of the Carroll teaching staff for the splendid work and cooperation that they have displayed during this past school year.

May we take this opportunity to thank Mrs. Mary Spaulding, School Nurse, for her outstanding work. Our appreciation is extended to Dr. R. N. Jones, School Physician, for his able assistance to Mrs. Spaulding. Our health program has improved extensively during this past school year.

May we take this opportunity to express to the members of the Carroll School Board, our sincere appreciation for their exceptional cooperation with your Superintendent during this past school year in helping to improve the over-all school system. The interest and welfare of the pupils attending your school is of the utmost importance to them. Any action taken by this board has been given careful consideration. You may justly be proud of its members.

The schools are yours, visit them frequently.

Respectfully submitted,

HAROLD A. TRUELL,
Superintendent of School

Elementary Supervisor's Report

Mr. Harold A. Truell, Superintendent of Schools
Twin Mountain, New Hampshire

I submit the following report for the Twin Mountain School:

Since Curriculum development and improvement of learning are of primary importance to the success of our teaching efforts, each achievement challenges us to attempt greater things. There is always much to do; but we are encouraged by the progress evidenced daily.

Children are making tremendous strides in Reading, which is, of course, requisite, if a satisfactory school experience is achieved.

Adoption of the Dual System of Reading (Phonetics and Sight Reading) has led to the discovery that, unless a child is a non-reader (a situation which is rare, indeed) he can be taught to read, through the application of one method or both. Our children are reading better and with greater ease and confidence.

Many types of manipulative materials supplement the actual reading instruction. For instance: (1) We have individual pocket charts and word builders, used by the children in building words and sentences at their seats; (2) The large "Pocket Chart" is always in evidence and contains drill words and sentences that have been discussed in class; (3) The "Big Book" is used to introduce the first reading lessons; (4) Portable Easels are useful, not only for painting, but also for "Experience Charts" and other displays. Each of these items helps to stimulate interest in Reading and to increase reading skill.

Our Social Reading program, which makes available to all children a wide variety of reading materials, is concerned exclusively with sight reading. It makes provision for group reading on a level commensurate with each child's ability. The enjoyment thus experienced creates a desire for more books. Many sets of texts (four in a set) on all grade levels, have been added to our textbook lists, and are used only for this purpose.

A detailed brochure of basic and supplementary reading materials which are available to the school has been prepared.

To intensify Arithmetic instruction and make the study more meaningful, we now have, for each first grade child (1) an "Abacus", or Fact-finder and (2) a box of "Number Builders" for use in the aforementioned Individual Pocket Charts. For all children in the Primary grades we have a complete set of "Number Combinations". These are displayed, in whole or in part, in the classroom as occasion requires. They are also an important "Drill" instrument.

Many Teachers' Workshops, designed to develop a better prepared teaching staff, and to unify teaching techniques throughout the Union, have been scheduled. In these Workshops discussion has centered about Reading and Arithmetic and close correlation made with Writing, Language, Science and other classroom subjects.

Some classroom needs still exist: We recommend that each child in the Elementary grades be provided with a dictionary. A Handwriting series, with workbooks for all children, might be advisable, since each room serves three grades. Because of the absence of a general school library, the classrooms still need many library books. Only as the children have access to a wide choice of recommended reading will they come to love and appreciate good literature and take pride in associating themselves with it.

We do, however, feel most fortunate for having received so many additional materials this year and we extend to the Board of Education our sincere thanks for making these helps possible.

We are deeply grateful to you, Mr. Truell, for your wise guidance and patient consideration and for your persistent efforts in our behalf. We appreciate Mr. McNamara's wholehearted support of those projects which we have undertaken and we know each teacher has contributed untiringly of time and talent that our Educational objectives may be achieved.

Respectfully submitted,
BLANCHE M. WITHERELL

Principal's Report

Twin Mountain School
Twin Mountain, New Hampshire
January 8, 1955

Mr. Harold A. Truell
Superintendent of Schools
Whitefield, New Hampshire

Dear Mr. Truell:

The following is my report as principal of the Twin Mountain School:

School Organization

Group	Boys	Girls	Total
Seniors	2	0	2
Juniors	3	2	5
Sophomores	2	3	5
Freshmen	4	1	5
Eighth Grade	6	1	7
Seventh Grade	6	4	10
—	—	—	—
	23	11	34

Elementary School

Group	Boys	Girls	Total
Sixth Grade	6	2	8
Fifth Grade	1	3	4
Fourth Grade	7	1	8
Third Grade	2	3	5
Second Grade	3	2	5
First Grade	2	7	9
—	—	—	—
	21	18	39

Curriculum

Miss Blanche Witherell, Elementary Supervisor, will include elsewhere in this report her evaluation of the elementary curriculum; therefore, it is not deemed necessary to include the elementary curriculum in the Principal's Report.

Our curriculum has undergone two major and fortunate changes over that of last year. The lack of a language course which for the past few years has been so sorely needed now

finds its initiation in French I. In the ensuing year French II will be offered. An advanced science course, Chemistry, has been made available this year through the addition of a sink and table plus additional chemical supplies which were provided for in the budget for this year. To maintain a needed advanced science course, Physics will be offered on a rotationary basis with Chemistry. These two areas, Advanced Science, and Language, have enhanced greatly the scope of the curriculum.

Another major change in the program was brought about by the addition of a class period per day; our school day is now composed of seven periods. This was required to make available to the pupils French I and Chemistry. Activity period now operates on a rotationary basis.

As in past years our courses of study fall into three groups: college preparatory, commercial, and general. Subjects offered to the High Student Body for the school years 1954-1955 and 1955-1956 follow:

Freshman Year

School Year 1954-1955	School Year 1955-1956
English IX	English X
World History	Civics
General Science	General Business Training
Algebra I	General Mathematics
French I	Physical Education
Physical Education	Music
Music	
General Mathematics	

Sophomore Year

School Year 1954-1955	School Year 1955-1956
English IX	English X
World History	Civics
General Science	General Business Training
Algebra I	General Mathematics
Biology	Physiography
Physical Education	Physical Education
Music	Music
Typing I	Typing I
French I	French II
Stenography	Plane Geometry

Junior Year

School Year 1954-1955	School Year 1955-1956
English XII	English XI
Problems of Democracy	United States History
Bookkeeping	Algebra II
Bus. Law & Salesmanship	Biology

English XII	English XI
Problems of Democracy	U. S. History
Bus. Law & Salesmanship	Algebra II
Office Practice	Typing II
Typing II	Stenography
Chemistry	Office Practice
Music	Music
Physical Education	Physical Education

Scholarship

It is my pleasure to report that with the initiation of French and Chemistry along with the persistence of the teachers upon high calibre work, the entire scholarship attitude is vastly improved over past years. The faculty realizes the importance the home plays in the role of improving scholastic attitudes. It appears from the results of the academic work to date that the homes have been giving us a great deal of cooperation in maintaining standards. Many children this year who had a lackadaisical attitude towards school work last year are showing marked improvement. There is a healthy under-current of academic competition.

Parent-Teachers' Association scholarships for academic superiority have caused no little concern for supplementing student interest in high academic standards.

Activities

The importance of the well balanced activity program can never be over-emphasized in its relation to adjusting the pupil in his life situation. What a child learns on the floors and fields of athletic competition has just as much value in adult life as those lessons he learns in the classroom.

Basketball, the only major sport of the school, again this year provides most of the athletic interest for the pupils. Twin is represented by both boys' and girls' teams. While any team enjoys a winning season, we cannot deny that many lessons are gained from playing interscholastic sports, win or lose.

As coach of the boys' team I would like to state here that I have enjoyed working with a team that shows the spark and fire that these boys show.

The Twin teams are certainly deserving of your support; when these small groups can go onto the floor realizing time and time again that there is no hope of major substitution, and still pull half of their games out of the fire even when clearly outclassed, I feel that they are showing something beyond the drive of the ordinary school child. They are a wonderful crew and I shall never forget working with and for them.

Again this year the bus has been making the trips on away games and we owe Mr. Perry a "thank you" for the cooperation he has shown us in providing transportation for those who wish to attend the games.

Skiing has taken on a new interest this year with the ski group for the most part working on cutting in a trail on Cherry Mountain. It is unfortunate that the slalom slope could not be completed this year, but we consider ourselves on the other hand to have accomplished a great deal in completing a novice-intermediate trail which is approximately two-thirds of a mile in length, fifteen feet wide, and has an approximate gradient of 20 degrees. Here again is another instance of the amount of work a small group will do when they have the drive some of our pupils have.

Twin will have an organized ski team this year composed for the most part of juniors (children who have not yet reached their 16th birthday). Twin has sponsored one meet on the Cherry Mountain trail, and has attended meets in Littleton, Franconia, and Lancaster. The junior high group promises to produce some proficient skiers in coming years.

A trophy has been donated by Mr. Donald Marshall and your principal for the best time to be attained by a Twin boy or girl on the new trail.

Our ski program at Cannon Mountain has had a major face-lifting this year through the efforts of your school board and Mrs. Donald Marshall, who has volunteered her services as instructor for Tuesdays. The ski group now has

a full afternoon, one day a week at the Roland Peabody Slopes. The group has been divided this year into ten classes so that each child may be more closely grouped according to ability. This is a definite asset to the child in that he may be brought along more carefully with a great deal more experience before being jumped from one class to a higher class. Here as in the past the work of the Parent-Teachers' Association in securing us an insurance program, has made such an undertaking possible.

The Student Council, which was organized last year, is in its second year under the guidance of Mr. Harry Peach.

It has been felt that there is a definite need for some type of limited dramatics at Twin. This has been initiated in the production of the Christmas play which was so ably directed by Miss McKenna and assisted by Mrs. Donald Marshall. We had an exceptionally large turnout for the play and wish to express our appreciation for the liberal support the townspeople showed in attendance. It is hoped that some type of Senior Play will find its way to the auditorium this year after initial obstacles have been overcome.

The Mountaineer, yearbook annual of the Twin Mountain school, will again be in production this year. Over the years the Mountaineer has provided the children with a record of the memories which will be so long cherished in future years.

School Interest

Our Parent-Teachers' Association has shown us the same continued support in providing for some of our needs.

It is now proposed that the Parent-Teachers' Association will make some attempt to provide a duplicating machine which would be of tremendous value to our pupils. With such a machine, we could produce for the first time in a number of years a paper which would contain not only school news and views but also be a courier of the town.

A most recent undertaking of the Parent-Teachers' Association is to provide uniforms for the girls' basketball team.

School Needs

1. Curtain and lighting fixtures are sorely needed for the auditorium. Acoustical sheeting would be of benefit in aiding voice carry throughout the audience.

2. A limited type of art program would provide a number of the students with the ability to capitalize on a natural interest.

3. Home economics and shop training would fully round out our curriculum.

Conclusion

I find great pleasure in reporting to you that your school has undergone several major changes and innovations over the last year.

Our primary grades are very well equipped with adequate and sufficient texts, new desks and chairs, pleasant surroundings due to the work of Mrs. Fisher in ever changing the room to suit the needs of the pupils. We would like to have each and all visit and view the work and the furnishings of the elementary grades.

New painting of the secondary rooms has given a new light to the entire upstairs; the addition of the laboratory for chemistry has created a new, healthy interest in science; the addition of a language course has provided the pupils with another area of interest and development.

I find a great improvement in home attitudes towards tardiness and absence. It is apparent that the homes have played an important part in supporting the school in its aims to set academic standards. For these, the faculty is in appreciation.

It has been a pleasure in working with the school board, my superintendent, the faculty, and the pupils.

Respectfully submitted,

JOHN M. McNAMARA,
Principal

Report of Supervisor of Vocal Music

Mr. Harold A. Truell
Superintendent of Schools
Whitefield, New Hampshire

Dear Mr. Truell:

Following is my report for the Twin Mountain School.

I would like to tell you that my association with the school people there has been most interesting.

The young people are very anxious to please, and as a whole, seem to be very happy with their music. Learning new songs, games, listening to records, and reporting on the programs they watch on television has been good.

All of the pupils in the Junior High and Senior High School have met in one group this year. Most of them have seemed to like the idea.

The pupils put on a very good program for Christmas. It was different from what they have done before, but the experience was good for them. The elementary pupils also participated in the Christmas program. It was varied, and the children were very spontaneous.

Respectfully yours,

RUTH WENTWORTH

Health Report

Mr. Harold A. Truell,
Superintendent of Schools
Twin Mountain, New Hampshire

I submit the following health report of the pupils from the last of January 1954 to January 1955.

It is my opinion that the pupils of Twin Mountain School are an unusually healthy group of children. There was a mild epidemic of mumps and measles during last spring; thirteen cases of measles and fifteen cases of mumps,

Vision examinations were given in March and November. Six children were found with eye conditions which were corrected. The audiometer was used for testing hearing loss in March and again in November. The heights and weights of all pupils are taken three times during the school year.

A diphtheria toxin-antitoxin clinic was held in Whitefield in April. Fifteen pupils attended the clinic. Four had booster shots and two were vaccinated. A chest clinic was also held in Whitefield at the Morrison Hospital. Dr. Kerr of Manchester was the attending examiner. X-rays were taken when found necessary. Twelve children attended the clinic.

Miss Annette Eveleth, who is the Director of School Health Services of New Hampshire, made a visit to the school in September.

The pupils in Grades I through VI are to have sodium fluoride treatments this year. This means each child will have his or her teeth thoroughly cleaned and receive the fluorine treatment. I urge every parent to sign the permission slip when it is sent to him. These services are free of any cost to the parents.

Dr. Jones examined seventy-three pupils in October. The result of his examination is as follows: Teeth 15, Corrections 15; Impetigo 3, Corrections 3; Adenoids and tonsils 8. Dr. Jones did not recommend removal of the tonsils and adenoids of those children. They just bear watching and checking.

Thirty home calls have been made since the beginning of this school year. Quite a few articles of clothing have been distributed and were greatly appreciated.

I wish to thank Mr. Truell, the members of the School Board and the School Faculty for their cooperation and help given me.

Respectfully submitted,

MARY D. SPAULDING, R. N.

School Nurse
